## NAIDEE CHANGMOH

'For many years I've been working in a kindergarten. My artworks are inspired by the pureness and happiness of the kids. Their beautiful energy influences me when creating my work.'

I am a Bhuddist. All my work relates to Bhuddist philosophy which keeps my mind close to peace.

I use cartoon forms to create my artworks and they can express my positive thinking. Most of my work will give a feeling of peace and simplicity.'
