## MICHAEL VAYNMAN

### ARTIST STATEMENT

"I create sculpture that explores notions of beauty, the Sublime and that indefinable, poetic nature of the human condition. My interest is in the synthesis of geometries with organic forms such as the human figure. The structure of my work lays in the interplay of line and shape and how that relates to the entirety of the whole form. The main intention of my art is to bring quiet contemplation to the mind and involve the person in the aesthetic experience".
